

Test Tracker: Skating Skills and Singles

LOUISVILLE SKATING ACADEMY

Skating Skills: Focuses on “skating skills” involving turns, strength, power, extension, edge quality, continuous flow, quickness and turn execution. Skaters may test as high as they want to in Skating Skills without taking any other tests.

Singles: Athletes are testing required jumps, spins and steps. The skater will perform the required elements in a program choreographed to music at a prescribed length. Skaters must pass the corresponding Skating Skills test to be eligible to test a Singles test. For example, a skater must pass the Pre-preliminary skating skills to attempt the Pre-preliminary Singles test.
